WISEASY Payment Innovator

WISEASY QS7D

QR Payment Speaker

- 4G & Wi-Fi Connectivity
- NFC Tag (Optional)
- 2.4" TFT Color Display for Dynamic QR Codes
- Multilingual Voice Announcements
- 8-digit Segment Screen
- Customizable Display Design

Beyond QR Payments

- 2.4-inch TFT color display dynamically refreshes QR codes for clear, tamper-resistant scanning
- Support NFC-enabled membership access, coupon collection, and exclusive offers
- A 8-digit segment screen supports the display of payment amount. Double check for peace of mind
- Built on an open messaging system, it delivers real-time audio alerts for transaction amounts, queue numbers, order pickups, and more, enabling versatile applications across diverse scenarios
- Supports multilingual audio notifications with a speaker output of up to 100 dB for clear alerts in noisy environments
- Packed with a built-in 2000mAh battery, it offers all-day long standby performance whether in 4G or Wi-Fi mode

Follow us on:

More Than Payments, More Possibilities

Turn every interaction into a marketing opportunity. Combine dynamic displays, audio promotions, and customizable stands to amplify your brand and drive customer engagement.

Dynamic Promotional Display

Showcase promotional offers and brand messages on the color screen between transactions.

Audio Marketing

Deliver promotional messages through voice announcements to capture customer attention beyond the screen.

Customizable Display Stand

Customize the display stand with branded visuals and promotional designs to enhance brand visibility and attract customers.
