

# Wiseasy Payment Solution

Payment Solution is a one-stop fintech solution based on PaaS (Platform-as-a-Service) platform. It enables merchants/PSPs/Banks to manage the operational and technical requirements in payment processing, allowing them to concentrate on more strategic endeavors in a cost-efficient way. For instance, building partnerships, marketing activities, and developing a distribution strategy, etc.

**PayCloud**

A comprehensive omni-channel payment gateway that supports all kinds of payment methods.

**WiseCashier**

A highly versatile and high-performance payment application that supports complete bank card transactions and mobile payment processing functions.

A mobile tool compatible with Android & iOS for merchants to handle payment and agency banking business.

**WiseBoss**

Seven series of smart terminals that cover all points of transactions, no matter in-store or mobile payments.

**Smart Terminals**

PayCloud is a robust payment platform that provides real-time reporting. Transactions are initiated on the WiseCashier app that is included as a standard feature on our range of seven intelligent Android terminals. PayCloud has a powerful operational administration overview, and also merchant portals, accessible either via a web-based portal or a mobile app known as WiseBoss.

Follow us on:

## What are we offering?

### High Compliance & Security

Based on PCI DSS certified payment platform & EMV compliant terminal devices for diversified payment scenarios. Equipped with a complete monitoring and warning system, leverages efficient, stable and safe operations.

### Omni-Channel Payment

A comprehensive omni-channel payment gateway that accepts domestic & international cards, QR code payment and digital wallets, allowing businesses to accept payments across various payment channels.

### Open API Designed

Open API & online checkout pages empower e-commerce and O2O businesses to accept payments anytime, anywhere in a quick and seamless way to maximize their sales growth.

### Market-driven Platform

Business Management Center offers payment institutions and merchants deeper business insights for their daily operations, helping them drive sales and reach more customers with value-added services.

## What's our competitive edge?

### Flexible Business Adaptability

Our Payment Solution meets the needs of any type of bank, financial institutions, PSPs, at any stage of their journey. Our comprehensive and versatile platform powers innovation and growth for institutions, whether you are established or emerging, global or local, physical or digital.

### Industry-leading Technology

Payment Platform (PayCloud) is developed based on Cloud Native technical architecture. It is designed and developed by DevOps. Containerized technology can effectively shield the difference of cloud computing environments. Multiple service nodes in different cloud environments could be easily deployed. Operation & Maintenance Monitoring System built with Prometheus and Grafana, leverages efficient, stable and safe operations.

## How can you benefit?

### Fully Equipped Services

Our all-in-one Payment Solution means minimal third-party interactions, providing a complete solution at the fastest speed in the industry.

### Leading Reliability

Best-in-class reliability with quick and efficient cloud-based API responses, fewer technical fail points, optimal business operation procedures and high-volume processing system.

### Ultra Flexibility

Our 100% proprietary technology means we have the agility to adapt and innovate with your evolving business and also keep up with the pace of regulatory and customer demands.

### Affordable Start-up Cost

Unlike traditional solution providers, we are highly flexible both in terms of technical concepts and business models. No need to be worried about high start-up costs, you can take your time to develop your business step by step.
