Product Introduction

With accurate calculation, the built-in reflective light lens transmits bar code information accurately and efficiently, and enables quick payment collection just by putting the code to the scanning window.

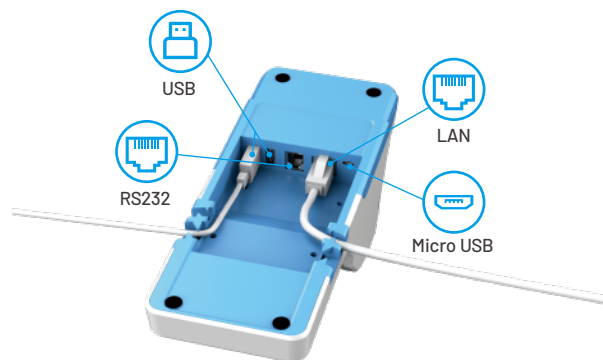

Brand new scanner cradle allows P3 to work at its peak condition with continuous power supply.

Scanner cradle enables to scan as far as 30 centimeters away. Support scanning fill light making quick scanning possible even in dark lightening environment.

USB interface and RS232 interface at the bottom support wired Internet access and can be connected to keyboard and other peripherals, expanding application scenarios.

Product Specifications

Items	Specification
Dimension	25.65 x 257.12 x 97.21mm
Color	White and Blue
Scanner	Supports Scanner with P3
Fill light	Supports
Charging	Supports 5V/2A

Items	Specification
Physical ports	1* USB cable
	USB 2.0, 4-pin, Type A *2 OTG function, 5V, 500mAh
	1* RS 232
	1* RJ45, supports wired internet connection
POGO PIN	5 PINs
